## **DETAILED ACTION**

## Response to Remarks

- 1. Applicant's remarks, see page 31, filed 5/10/2007, with respect to objection to the specification have been fully considered and are persuasive. The objection of the specification has been withdrawn.
- 2. Applicant's arguments, see page 31, filed 5/10/2007, with respect to the rejections of claims 1-3, 13, and 41-42 have been fully considered and are persuasive. The rejections of claims 1-3, 13, and 41-42 have been withdrawn.

## Allowable Subject Matter

- 3. Claims 1, 5-12, 14-64 are allowed.
- 4. The following is an examiner's statement of reasons for allowance:

The present invention describes method and apparatus that receives a wireless telecommunication data signal without accompanying pilot signals; extract phase adjustment information from the wireless communication signal by reducing and averaging differential quadrature component or quadrature component of the received signal and using said phase adjustment information to demap said wireless telecommunication data signal by either modifying an indication of said wireless telecommunication data signal or modifying constellation point value wherein said indication of said wireless telecommunication signal is a Fourier transformed indication. Application/Control Number: 10/628,943

Art Unit: 2611

B2) disclose a similar method and apparatus except extracting phase adjustment information from the wireless communication signal by reducing and average differential quadrature component or quadrature component of the received signal and wherein said indication of said wireless telecommunication signal is a Fourier transformed indication. The distinct features have been added to the independent claims 1, 14, 20, 31, 36, 41-43, 51, and 58-59, therefore, rendering them allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Siu M. Lee whose telephone number is (571) 270-1083. The examiner can normally be reached on Mon-Fri, 7:30-4:00 with every other Friday off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Chieh Fan can be reached on (571) 272-3042. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
